

AZ IMMIGRATION

Service

Our end-to-end service gives you peace of mind, saves you significant time and effort and guarantees that your application will be submitted in the quickest possible manner.

This is a typical journey of your case:

- Consultation Call. This allows us to meet each other, request relevant information from you so that we can establish whether we can assist you with your case and understand your background and current situation. It is also a great opportunity for you to ask any initial questions you may have.
- Case Initiation. Shortly after our Consultation Call, providing that you've instructed us to take on your case, we'll write to you to confirm in detail how we'll be proceeding and provide all timelines/next steps so that you have those written to refer to. Once you've provided your consent, we'll initiate your case.
- Documents and Questionnaire(s). We'll ask you to complete a short Questionnaire and share securely the necessary documents, so that we can proceed with drafting your application and complete any other background work in the meantime.
- Submission. Once we have received all the necessary information/documents from you (and other parties, if applicable, for example your Employer) and you're happy with your application's content, we'll proceed with submitting your application (and book any biometrics appointment, if necessary and applicable).
- Decision. As your Legal Representative, we'll receive the application decision from UKVI (UK Visas and Immigration) and will share it with you. At that point we'll also advise you on any further actions/next steps. Your case with us will then be closed.

Throughout the process we'll keep you fully informed and updated in writing. We'll be available by email and over the phone for any questions you may have.

This will be the case even after your application has been decided and your case with us has been closed. We'll always be available to answer any questions or provide clarity on anything you need!
